2022.01.06 - 2022.01.07

### PDP ACADEMY

Course of Flutter  
2022.01.07 - 2023.01.09

## LANGUAGE

English (Elementary)  
Russian (basic)  
Uzbek(native)

## ABOUT ME

I am a mobile developer with a strong background in Flutter and mobile application development. I have experience working on various projects, including the TODO App, Encyclopedia App, and Shop App. In these projects, I utilized technologies such as Cubit, Localization, Hive, BLoC, and SQFlite. My educational background includes high school education with a GPA of 5 out of 4. With my passion for mobile development and my diverse skill set, I am ready to take on new challenges in the field of mobile app development.

## MY PROJECTS

### Todo App:

I used a lot of technology here. Among them: Cubit, Localization and sqflite. I think it will be necessary for many of our compatriots.  
Git Hub: [Todo App](#)

### Encyclopedia App:

I use localization for this project. And this project is useful for children. There is a lot of information in 3 languages. Information is listed in alphabetical order.  
Git Hub: [Encyclopedia App](#)

### Shop App:

I am using Hive, BLoC for this project. And this project has login and registration pages. In this project you can see the sale of laptops
